An

Act

for the enactment of Digital Presence Proceeds Tax Act, 2025

Whereas the rapid digitization of the global economy has fundamentally transformed traditional business models, enabling multinational enterprises particularly those in digital sector to generate substantial revenues and profit from jurisdictions where they maintain little or no physical presence;

**AND Whereas** the current international tax framework, designed in the early 20<sup>th</sup> century, relies on concepts of physical presence and permanent establishment that fail to capture the value created through digital interactions, user data, and intangible assets within market jurisdiction;

**AND Whereas** this misalignment has resulted in significant tax base erosion for nations, as profits generated from local users, data, and digital engagement are shifted to low-tax jurisdictions, undermining fiscal sovereignty and the principle of "value creation" as the cornerstone of equitable taxation:

**AND Whereas** objection to Digital Service Tax overlook the failure of existing rules to adapt to the digital economy and the legitimate right of nations to safeguard their revenue until a unified solution is achieved.

**Now**, therefore, the introduction of Digital Presence Proceeds Tax Act, 2025 stands as necessary, justified and proportionate measure to ensure tax fairness and protect public revenue.
